

We can be your IT Staff - Pay only for what you need!

Certified and professional IT services for any budget. Whether you need to outsource your entire IT department, or need project-specific assistance, our certified engineers will bring decades of experience and comprehensive knowledge of virtually all IT solutions to your business. From the small business with 5 users, to the large business with 5,000 users, we have a solution for every need and every budget.

An increasing number of businesses are benefiting from outsourcing all or part of the support element to IT firms such as Mac Help OC to manage an efficient IT environment.

Our IT Management Solution is designed for periodic on-site visits that includes preventive maintenance to ensure your network remains in high availability. We also perform new equipment installations, desktop and server support, verify backups, perform system updates and systems administration as well as address high priority trouble tickets.
